(1) Excess one rupee in rate is only for 100 yards which comes up to 601 at Rs 6/- a cubic yard. As it was found necessary to deep the well by 8 feet to have a good supply of water, this excess provision is made. As it is difficult to move blasted rocks from a depth beyond 35 ft this excess in it is provided. The spring tap in this well is at a depth of not 30 feet.

(2) 50

[illegible]

(2) It is necessary as there is
no water in the well to
be led out.
